Features

- Fully manufactured in frosted stainless steel.
- Semi-industrial, adapted for large restaurants, butchers, delicatessens and supermarkets.
- The butterfly nut, located at the upper end of the crest, has the purpose of adjusting the pulley that straps the band saw to avoid the oscillation of the belt.
- The table consists of a piece of stainless steel; equipped with four wheels that run on a rail for easy handling and cutting of meat.
- It has a sliding arm with instant blocker, which can be placed in any desired position to select the thickness of the meat as desired.
